

McGill

Assistant / Associate Professor

Faculty of Medicine – Department of Neurology and Neurosurgery and the Centre for Research in Neuroscience (CRN)

Position description

The McGill University Department of Neurology and Neurosurgery and the Centre for Research in Neuroscience (CRN) at McGill University invites applications for a tenure-track faculty position in the field of neurodevelopmental disorders at the rank of Assistant or Associate Professor.

The CRN is a vibrant research centre that encompasses basic and translational neuroscience research with highly interactive research groups. The CRN is located at the Montreal General Hospital and is supported by the Research Institute of the McGill University Health Centre. The centre is located in Montreal, a cosmopolitan city with an attractive and affordable lifestyle.

Job Duties

The successful candidate will be expected to establish and maintain a highly innovative, independent, and externally-funded research program and contribute to teaching and the supervision of graduate students at the University.

Qualifications and Education requirements

Applicants must have a Ph.D. or M.D./Ph.D. in neuroscience or related field and at least 3 years of postdoctoral training. Applicants with interest in research involving neurodevelopmental disorders such as autism and Fragile X syndrome are particularly encouraged to apply.
