

Our client, Windsor Regional Hospital (WRH), is a multi-faceted health services organization operating from two main sites, the Metropolitan Campus and the Ouellette Campus. With 500 beds and an operating budget of over half a billion dollars, WRH is the regional provider of advanced care in areas that include complex trauma, renal dialysis, cardiac care, stroke and neurosurgery, intensive care, acute mental health, family birthing centre, neonatal intensive care, paediatric services, and regional cancer services. WRH provides a broad range of medical and surgical services required to support these specialized areas for more than 400,000 people in Windsor and Essex County. Windsor Regional Hospital is seeking:

## Neurologists & Locum Neurologists

With increasing volumes, program development, and growing demands for service, WRH is seeking top tier Neurologists to join their team to contribute to service delivery excellence in the Neuro-Interventional Program. This is an exceptional opportunity to join an innovative, collegial, and mutually respectful team to contribute to neurology service delivery excellence.

There is a need to expand the group of neurologists which would include general neurologists who have interest in supporting inpatient endeavors. Full time, part time, and locum opportunities are available. WRH is also interested in recruiting subspecialty neurologists to bring unique skills to the group and community.

As a designated Enhanced District Stroke Centre, Windsor Regional Hospital provides specialized services for stroke and TIA patients offering timely hyper-acute treatments like tPA and endovascular therapy (Thrombectomy and Coiling), as well as neurosurgical services. The hospital has neurologists, neurosurgeons, and interventional radiologists on staff providing expert care for stroke patients. Following intervention and post procedure recovery and stabilization in the ICU, patients are transferred to the Acute Stroke Unit, a designated 16-bed unit dedicated to the care of Stroke patients. Inpatient and outpatient rehabilitation services for Windsor-Essex are offered locally through Hotel-Dieu Grace Healthcare. Outpatient Rehab options direct from hospital also includes the Intensive Hospital to Home Rehab program and E-Rehab services provided through the Erie St. Clair LHIN.

Physicians at WRH have the opportunity to educate and mentor residents from the Schulich School of Medicine and Dentistry, with professional staff members eligible to hold a University appointment.

Candidates must be certified, or eligible for certification, by the Royal College of Physicians and Surgeons of Canada in Neurology and hold, or be eligible for, licensure with the College of Physicians and Surgeons of Ontario. Offering great flexibility and work/life balance, these positions include an attractive compensation and relocation incentive package.

The Windsor-Essex area is ecologically rich with extensive parkland combined with a southwest location that extends warm weather activities such as golfing, gardening, and water sports. Windsor offers the unique opportunities of a larger metropolitan area and the benefits of a smaller community. Living directly across the border from Detroit, Michigan places you on a cosmopolitan stage where arts, culture, big league sports, and entertainment are just moments away. Best of all, you can enjoy access to all of these big-city advantages while living in the tranquility and beauty of the Windsor region.
