14th Annual Conference and Trade Show
May 31 – June 3, 2020
Hotel Bonaventure, Montreal

Dear Collaborators and Industry Partners,

It is our pleasure to invite you to support our next meeting, which will be held in Montreal from May 31 – June 3, 2020. This will be the 14th Annual Meeting of the Canadian Association for Neuroscience, **the largest association dedicated to neuroscience research in Canada**. Our meeting will provide you with great opportunities to showcase your products and interact with many researchers and clients.

Of the growing number of researchers who attend our meeting – we expect **approximately 1000+ attendees** – many will be interested in discovering the products you have to offer. Our attendees study development, cellular biology, sensory, motor and neuroendocrine systems, cognition and behaviour, and many other domains in the vast field of neuroscience. These studies require many advanced tools and equipment that companies like yours provide.

Our conference will be held at the **Hotel Bonaventure Montreal**, a modern, state-of-the-art hotel located in the heart of downtown Montreal.

Advertise in our conference program, be an **exhibitor** and display your product, or **sponsor** a portion of the conference and receive extended exposure to the 1000+ group of assembled Canadian Neuroscientists! Full details can be found in this package.

Your presence at our meeting is a much-appreciated demonstration of your support for Canadian Neuroscience.

Sincerely,
Katalin Toth

President of the Canadian Association for Neuroscience

What is the 14th Annual Canadian Neuroscience Meeting?

The 14th Annual Canadian Neuroscience Meeting is **Canada's largest conference bringing together researchers and scientists from the many disciplines comprising the world of Neuroscience.** The conference serves as an important event for discussion and exchange of the most cutting edge knowledge, insights, issues and ideas in Neuroscience.

The first Annual Canadian Neuroscience Meeting was hosted at the University of Toronto in 2007. The support of the conference exceeded all expectations with over 600 delegates in attendance and spurred the decision to continue holding annual meetings. Since then conference attendance has fluctuated between 600 and 1000 delegates depending on proximity of the meeting location to major neuroscience centers. The Meeting rotates annually between Toronto, Montreal and Vancouver.
