

Neural Stem Cells: from model organisms to brain disorders

May 19, 2024, 8:30-4pm
Westin Bayshore Hotel
Vancouver, Canada

Short Talks:

Kaylan Burns (*University of Calgary*)
Tyler Wenzel (*Univ. of Saskatchewan*)
Beatrix Wang (*University of Toronto*)

Organizers

Armen Saghatelian

University of Ottawa

David Kaplan

Sickkids Research Institute

Anastassia Voronova

University of Alberta

Karun Singh

University Health Network

Registration

\$60 (registered for CAN)

\$80 (not registered for CAN)

Stem cells in non-mammalian organisms

Sarah McFarlane

University of Calgary

Ben Lindsey

University of Manitoba

Deborah Kurrasch

University of Calgary

Mammalian neurogenesis

Diane Lagace

University of Ottawa

Maryam Faiz

University of Toronto

Gilda Stefanelli

University of Ottawa

Robert Beattie

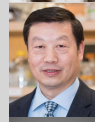

University of Manitoba

Therapeutic potential of stem cells

Soheila Karimi

University of Manitoba

Weihong Song

University of British Columbia

Xi Huang

Sickkids Research Institute

Freda Miller

University of British Columbia
